

## COUNTRY DAY FOR CHILDREN

*An Education For A Lifetime*

## March 2017 Newsletter

Dear Families,

Spring will officially be here on Monday, March 20th. What a wonderful opportunity to enjoy nature, animals and the outdoors. Butterflies are symbols of Spring! Children of all ages love to watch the lifecycle of caterpillars as they change to a chrysalis and then emerge as a beautiful butterfly. You can plant native Florida plants that will lure in these creatures to delight your child. Consider visiting local gardens and zoos which house butterflies and plants. If you live near water, look for tadpoles and study the lifecycle of frogs and toads. A nature walk to our local wetlands and shores will give your family a chance to search for new life in birds, animals, reptiles, fish, and plants. This is also the time of the year to begin a vegetable or herb garden to harvest later. Allow children to help plant, water, weed and harvest their crops. There is nothing better than to see children pick and eat beans from a plant growing in their yard. Have your child write in a notebook or journal to record their findings. This could be a treasured keepsake for your budding naturalist. Remember, you are your child's first teacher.....

Sincerely,  
Ms. Turner  
Principal
